DHA PARKS

DHA PHASE XII (EME)

LAHORE – THE HEART OF PUNJAB

Lahore is the capital city of Pakistan's Punjab province, and considered the cultural heart of the country. It is the second largest city in Pakistan after Karachi. Lahore's population in 1998—the last time a census was conducted—was 6.5 million but it is now believed to have between seven and ten million people, making it roughly the same size as Cairo, London, Bangkok or New York. Lahore is at once an ancient and modern place. The most famous Punjabi saying about Lahore embodies this feeling: 'Lahore, Lahore hai' which translates, 'Lahore is Lahore'.

CHAIRMAN'S MESSAGE

Value Group has been striving, since its inception, to become an inspiration for its competitors in building harmonious communities which create a powerful impact of beauty in Lahore City. This is only possible by combining a strong business strategy with robust, out of the box thinking and foolproof implementation strategies. Applying these rules we have been able to establish innovative and distinct flagship developments previously.

Value Group also works as the vital element of the real estate market in Pakistan that contributes to the national economy by driving in foreign and local investments and generating development and trade activities. It also generates opportunities for real estate developers and builders, buyers, investors and affiliated industries.

The Value Group enjoys a strong reputation for outstanding value at a competitive price. Combine this with iconic developments and experienced management team, Value Group is 'building for the future' in every sense.

Mian Zahid Islam Anjum
